ITRI Forum 2010 and Career Fair

*Together, We Take on Some
of the World's Challenges*

May 2, 2010 (Sunday)
Crowne Plaza Chicago Metro
733 West Madison, Chicago, IL 60661 (312-829-5000)

You are cordially invited to join the ITRI Forum in Chicago on May 2. We will start with luncheon (from 12:00 to 1:30 pm), featuring a keynote speech, and then have a session (from 2:00 pm to 4:00 pm) of presentations and discussion on emerging technology and business opportunities with ITRI. We will focus on clean technology (CT) and information and communication technology (ICT) among others. In addition, if your company is interested in doing a company presentation, please check with us soon. We are constantly looking for R&D, IP, and tech business collaboration opportunities.

Holding over 10,000 patents, including 3,660 U.S. patents, and with 6,000 staff conducting R&D in six major technology areas, ITRI has been working with many international companies and organizations to address the world's challenges by leveraging innovations in the areas of clean technology, information & communication technology, and medical devices, among others.

Since 2006, ITRI has been holding ITRI Forum and Career Fair in Silicon Valley. This year, ITRI will also host the event in Chicago area for the first time. The objectives are to foster the technology and business collaborations between ITRI and local companies and organizations as well as recruiting international talent to work on exciting projects that take on some of the world's challenges.

ITRI's Major Practices:

- | | |
|---|--|
| (1) R&D contract services; | (4) Joint development and IPR sharing; |
| (2) Technology transfer (source in & out); | (5) IP pooling and/or auction services; |
| (3) Incubation [<i>Silicon Valley and ITRI HQ's Open Lab</i>]; | (6) Venture capital investment |
